MEMORANDUM FOR: Mr. James O. Reber

12 September 1958

SUBJECT : [REDACTED] Organizations

25X1A

REFERENCE : Memorandum for SA/PD/DCI, dated 9 September 1958,
TCS-3720-58

25X1A 1. I had an illuminating discussion yesterday with Rod Scott, who just
25X1A returned from a trip in company with [REDACTED] to [REDACTED] and
25X1A [REDACTED] You should be sure that [REDACTED] is aware of his (Scott's)
views and findings before he [REDACTED] takes off. I had a written report from
Rod which I believe [REDACTED] should read before he goes even if he does
not have a chance to talk to Rod.

25X1A 2. It is the view of Messrs. Scott and [REDACTED] at the present time
25X1A that [REDACTED] seems to be doing an extremely good job. On the other hand
[REDACTED] is plagued with a variety of difficulties which [REDACTED] can explain
if he has not already done so.

25X1A 3. One suggestion which I would make (which is my own rather than
25X1A Scott's or [REDACTED] is that when [REDACTED] is active it should have a clear
25X1A priority over [REDACTED] and it should draw such supplies and personnel from
25X1A the latter location as [REDACTED] may need. This might make it possible to
25X1A support a fully adequate effort at [REDACTED] in its periods of activity without
25X1A trying to find the funds and personnel to support two such units in the European
Theater. This suggestion is made in ignorance, of course, of the require-
ments that may be levied on [REDACTED] other than from CHALICE. I make
the suggestion because when [REDACTED] is operational and is handling the take
from CHALICE, our Project generates no requirement for [REDACTED]
